EDUCATION

Hofstra University

New York, USA

B.S. in Computer Science

Expected Graduation, May 2027

- o **GPA:** 3.46/4.00, *Dean's List*
- o **Related Coursework:** Data Structures & Algorithms, Computer Organization & Programming, Software Engineering, Object-Oriented Programming, Applied NLP and Text Mining, Operating Systems

EXPERIENCE

IT Systems Support Engineer (Student Role)

New York, USA

Maurice A. Deane School of Law at Hofstra University

Sept 2025 - Current

- **Accomplished** faster IT troubleshooting **as measured by a 15% reduction in resolution time**, by developing **Python scripts** to automate log analysis, system monitoring, and routine error handling.
- **Ensured 99% uptime** for several law school devices by configuring and monitoring networks using **TCP/IP and DNS protocols**.
- **Reduced repeat support tickets by 20%** through building a structured knowledge base, leveraging database organization and information retrieval principles.
- **Collaborated** with **senior engineers** to implement **proactive monitoring tools and troubleshoot complex multi-user systems** in real time.

PROJECTS

Smart Syllabus Calendar Sync | GitHub: <https://github.com/NiloySaha84/Syllabus-Calendar> | Live: <https://syllabus-calendar-navy.vercel.app/>

- **Engineered** a Next.js 14 application that **automatically transformed academic syllabi into interactive calendars**, reducing manual event entry time for students by **80%** through PDF parsing, date extraction, and AI classification.
- **Improved cross-platform accessibility for all users** by integrating **Google OAuth2** and **ICS export** functionality, enabling seamless synchronization with **Google Calendar**.
- **Increased user engagement by 40%** through optimizing the calendar UI with **React Big Calendar** and **Tailwind CSS**, delivering a mobile-responsive interface with color-coded events and multiple viewing modes.
- **Applied cloud-native** and event-driven design principles, deploying through **Vercel** with **AWS-ready** architecture for scalability and resilience.

EduFlow AI | GitHub: https://github.com/NiloySaha84/Ai_Study_Companion | Live: <https://ai-study-companion-eight.vercel.app/>

- **Built a full-stack AI learning platform** enabling **real-time voice tutoring**, achieving **<100ms latency** by integrating Next.js 15, VAPI.ai, Deepgram (STT), and ElevenLabs (TTS).
- **Boosted learner engagement by 40%** through **customizable AI companions** with configurable voices, teaching styles, and session tracking powered by **GPT-4** and **Supabase**.
- **Delivered cross-platform adoption** with **responsive glassmorphism UI**, implementing **Tailwind CSS**, **Framer Motion**, and **Clerk authentication** for seamless web and mobile experiences.
- Designed with **cloud-native and event-driven architecture principles**, deployed via **Vercel** with **AWS-ready configuration** for scalability and resilience.

ACTIVITIES AND LEADERSHIP

HOFSTRA C.O.D.E

New York, USA

Member

Sept 2024 - Current

- Ranked **Top 5** among 20+ teams in a hackathon by building a rapid web-based automation solution within 48 hours.
- Collaborated on open-source projects emphasizing **code quality, pull requests, and peer reviews**.
- Led peer sessions on **emerging AI tools** and **full-stack best practices** to encourage collaborative learning.

SKILLS

Programming Language: Java, Python, JavaScript, HTML/CSS, SQL, Dart, TypeScript, C++, Bash

Frameworks, Concepts, and Databases: NodeJs, ReactJs, NLP, Debugging, Cloud Architecture, Spring Boot, Docker, Data Structures and Algorithms, OOP, SDLC, RESTful APIs, Git/GitHub (Version Control), MongoDB, PostgreSQL, Supabase, AWS (EC2, S3, Lambda)
